

NEWBURY 4x4 CENTRE

Newbury 4x4 Summer 2024 News Letter

Driving on holiday this summer in your car?

Is it as ready for the journey as you are?

Over 1000 4X4 enthusiasts trust us to look after them, their families and their vehicles and we are proud and grateful to be able to include all of them in our community. Thank you for being one of them and for believing in the team at Newbury 4x4.

Clearly, nobody wants to break down whilst travelling on holiday, waiting hours for recovery, when they have spent all winter looking forward to their summer adventure.

When you planned and prepared your vehicle as carefully as you have planned and prepared your holiday and route, your chances of a great experience increase dramatically! You do not want the disappointment, frustration, lost time, and money a break down will cause.

To help you prepare your vehicle correctly for your much anticipated summer road trip your Newbury 4x4 preventative maintenance options, and offers are as follows:

- Know just how safe your car IS?

Seatbelts, Tyres, Lights, Brakes, Oil and Fluid Levels, Suspension all thoroughly checked by an expert Technician, providing you with a written HEALTH CHECK report all for just £45 plus Vat.

- Stay COOL as the temperatures climb!

One of our Technicians will comprehensively service your Aircon system, check for leaks, repair and recharge as necessary, ensuring you stay cool as the sun shines! Starting from £45 plus Vat (gas and systems can vary, please ask for more information).

- Look after your Gears and they will look after you!

Land Rover often suggest that transmission oils can be left for up to 150,000 miles. By then, in our experience, the oils are passed their best by 75,000, resulting in terminal and expensive wear if left unchanged.

Consider a full transmission Oil Service to include your Gear box (and filter if automatic), Transfer Box and Differentials, starting from £165 plus Vat. Feel free to request a specific price if you do not need a complete transmission Oil Service.

- Are you heading in the Right Direction?

Ensuring your 4 road wheels are correctly aligned will save you tyre wear and fuel consumption. A big deal as you navigate your way across Europe this summer! Consider having your 4-wheel alignment checked and correctly adjusted from just £75 plus Vat.

This will include toe adjustment only to the front and rear of your vehicle. If the parts are found to be seized there maybe additional charges regarding labour and parts. If it is found that the castor and camber adjustment is required, this will incur additional charge too.

- It may Rain...but hopefully not!

Your Tyres are the only contact patch you have with the road! Please do not cut corners. Consider having your tyres checked for condition, wear and pressures FREE. Should you require replacement Tyres our team will advise you correctly and source them for you, taking the hassle away.

We have NEWS!

We would like to welcome Ben Matthews to our team. He hasn't got Land Rover running through his veins yet like most of us, but he will be a valued addition to Newbury 4x4 Centre.

We look forward to seeing you soon. Please contact us to book your vehicle in or if you have any questions call Harrison 01635 32028 or email us via service@newbury4x4.co.uk.

Thank you.

Wishing you a great summer 2024!
